DETAILED ACTION

Information Disclosure Statement

The information disclosure statement filed May 10, 2006 fails to comply with the provisions of 37 CFR 1.97, 1.98 and MPEP § 609 because US 5927076 does not correspond to the inventor listed. JP06177618 only an abstract appears in the file which does not comprise a 'copy' of the foreign patent document.

It has been placed in the application file, but the information referred to therein has not been considered as to the merits. Applicant is advised that the date of any re-submission of any item of information contained in this information disclosure statement or the submission of any missing element(s) will be the date of submission for purposes of determining compliance with the requirements based on the time of filing the statement, including all certification requirements for statements under 37 CFR 1.97(e). See MPEP § 609.05(a).

Allowable Subject Matter

Claims 9, 15 – 19, 22 and 23 are allowed.

The following is a statement of reasons for the indication of allowable subject matter: The prior art of record does not teach or suggest the limitations of the claims comprising first thru fourth resistance networks soldered on a circuit board in SMD technology. Jarger neither teaches nor suggest the claimed structure including a combination of coax and resistor array nor would it have been obvious to do so in combination with the other claimed structural elements thus the claims are allowable.
